

## TECHNICAL NOTES

# Wagg & Purr® Cephalexin

### Active Constituents

Cephalexin (as monohydrate) 500 mg/tablet, 1000 mg/tablet

### Actions

Wagg & Purr® Cephalexin is for the treatment of susceptible bacterial infections.

### Indications

Wagg & Purr® Cephalexin is for the treatment of susceptible infections in dogs and cats including:

- Infections of the skin and localised infections in soft tissues
- Respiratory tract infections
- Urogenital tract infections
- Treatment and prophylaxis of osteomyelitis
- Treatment of susceptible gastrointestinal tract infections in dogs

### Contraindications

This product should not be used in animals that are hypersensitive to cephalosporins and penicillins.

### Precautions

Use with caution in cases of known renal insufficiency as accumulation may occur in the kidneys when renal function is impaired. Dose should be reduced.

### Side Effects

Some dogs may exhibit nausea and vomiting.

### Dosage & Administration

The tablets can be given orally or crushed and added to food.

The dose rate is 10-15 mg/kg bodyweight, twice daily for five days or at the discretion of the veterinary surgeon.
