

TECHNICAL NOTES

Wagg&Purr®

Dogs & Cats Antimicrobial Ear & Skin Suspension

Active Constituents

Miconazole nitrate 23 mg/mL
Prednisolone acetate 5 mg/mL
Polymyxin B sulphate 0.696 mg/mL

Actions

Wagg & Purr® Dogs & Cats Antimicrobial Ear & Skin Suspension treats infections caused by bacteria and fungi. This product is not effective against ear mites.

Indications

Wagg & Purr® Dogs & Cats Antimicrobial Ear & Skin Suspension is for the treatment of otitis externa and skin infections caused by fungi (such as yeast), Gram-negative and Gram-positive bacteria in dogs, cats, and horses.

Contraindications

DO NOT USE Wagg & Purr® Dogs & Cats Antimicrobial Ear & Skin Suspension in a perforated ear drum.

Dosage & Administration

Otitis externa

It is recommended that the ear is cleaned and dried prior to treatment. Instil 3-5 drops into the ear twice daily. Gently massage the ear to ensure even distribution.

Skin infections

It is recommended that the hair surrounding or covering the lesions is cut prior to treatment. Apply product to the affected area and rub in. After clinical signs have completely disappeared, continue treatment without interruption for several days. In chronic cases, it may be necessary to continue treatment for 2-3 weeks.

Shake well before use.

Use product within 4 weeks of opening.

Withholding Periods

The WHP for meat (horses) is zero (0) days.

First Aid

If poisoning occurs, contact a doctor or phone the Poisons Information Centre on 13 11 26.

Safety Data Sheet

For Safety Data Sheet see www.avet.health

Presentation
